

Step 1 Logging into Halic-X

The English Proficiency exam is to take place on Halic-X which is the online education system for students. You need to login to Halic-X using the student username and password sent to you during registration. Once you login, your Proficiency Exam will be available on your homepage. You need to click on it and take the exam in the given hours.

Step 2: Microsoft Teams & Camera Usage

Simultaneously with the online exam, you will also need to join the Microsoft Teams class with your camera on during the occurrence of the exam. You need to create an account on Microsoft Teams using your student email address.

Student email addresses consist of the name and surname of students. Your student email address must look like:
namesurname@ogr.halic.edu.tr

If you do not know your student email address and password, you can email the IT Department at sistem@halic.edu.tr to inquire about them. While emailing the responsible unit, please make sure to specify your full name and student ID number.

Note: Please make sure to login to the necessary systems before the time of the exams. Make sure that you have already created an account on Microsoft Teams with your student email address and are ready to attend the exam directly on time.

Note: If the English Proficiency Exam is not available on your Halic-X system, 2-3 hours prior to the exam, you can email huzem@halic.edu.tr regarding the matter and your system will be updated for you.

For further questions regarding the English Proficiency Exam, you can email the unit secretary at bernayildiz@halic.edu.tr
